Trustee and Guardian workload

Members have advised the PSA workload pressures are at an all-time high across NSW Trustee and Guardian.

In order to understand the workload issues members face in more detail, the PSA has compiled a survey which you can access HERE.

The data will provide the PSA evidence towards seeking improvements to how workload is currently dealt with by management.

Please be aware that all responses are kept strictly confidential and members who fill out the survey will remain anonymous.

Please note this survey closes Friday, 21 May 2021.
