29 November 2018

Workers Compensation Amendments – Change Management Plan

The PSA has been provided with the Change Management Plan (CMP) for the Workers Compensation Amendments that will affect some staff in SIRA, WIRO and Customer Experience.

In addition to the briefing materials and CMP provided to the PSA on 19 November 2018, the Department informed the PSA on 23 November 2018 that it would be deferring the implementation of the CE roles placement until March 2019.

As always, the PSA invites members to participate in the consultation process. If you have any issues or concerns, please raise them with us by COB Friday 30 November 2018

A members meeting has been arranged for Wednesday 5 December and details will follow shortly. The PSA has also sought an extension from the Department, as the current consultation period was to close on 3 December 2018.

If members want to raise any issues with the PSA can you please email the following:

Workers Compensation Commission and WIRO members
