We want to hear from you

Late last year the PSA sent out a bulletin and survey about a number of issues members have been experiencing in the workplace.

The union has been negotiating with different districts and the wider Department to fix these problems and while we have been able to get some significant improvements in some areas ***we want to do a lot more***.

To do this we must properly demonstrate how widespread these issues are. We need to hear from the people that are experiencing them, ***you***.

Tell us what you think

This survey is for all members in Community Services whether they be working in vital administrative support positions, as caseworkers or as managers. We know that all employees can experience issues in the workplace and we value each member's feedback.

If you can spare just **eight minutes** of your time to fill in our simple survey, we can continue to fight for the things that we know members care about such as permanency and manageable workloads.

CLICK HERE TO DO THE SURVEY

This survey is confidential and no individual respondent will be identified. We will be using the outcomes of the survey to help us to lobby for better support and more secure work for you.
