

Water NSW Enterprise Bargaining

SUCCESS!

CPSU NSW members demanded that the Enterprise Agreement contain enforceable redundancy provisions.

And WaterNSW has agreed to members' demands! The outcome means a reduction in conditions for former State Water Corp employees, and it also means the NSW Government can change the redundancy payments and 3-month retention period at any time.

CPSU NSW rejected the boss's proposal to force employees to take Long Service Leave after accruing 3 months.

And WaterNSW has agreed to members' demands! There will be no ability for the employer to force you to take Long Service Leave. This doesn't address the ability for members to take 6 to 9 months at a time where WaterNSW refuses. What it does mean is that Water NSW is listening to CPSU NSW members and what members care about!

There is still more to do, and negotiations will continue this afternoon.
