Penrith Valley Community Unions is a group of local unionists and community members who live in the Penrith Valley and lower Blue Mountains areas.

WE PROVIDE THE SERVICES TO OUR COMMUNITY:

We keep you safe, look after you when you are sick, teach your kids, build your roads and bridges, make and transport your products, serve you in our shops and restaurants, feed and look after the homeless and vulnerable, transport you around, look after our parks and gardens and we provide essential services.

We need to campaign together to ensure that governments and councils invest in our services like health, education, transport and our TAFE.

We also campaign for them to create secure jobs in the West and to ensure that Penrith continues to grow into a vibrant and well sustained community so our children have the best opportunities.

This is why we have joined together under the Penrith Valley Community Unions to be the voice for the Penrith community on these and other local issues.
