Dear Minister,

I write regarding the article in today's Daily Telegraph indicating that the announcement in relation to the privatisation of State Fleet is imminent. The Association represents members employed in State Fleet. We ask that, prior to making any announcement, you first consult with the union in relation to what is proposed and the underlying rationale for the decision.

We have seen no business case that represents any long term cost savings and in fact we are advised that State Fleet makes substantial revenue.

We also seek details in relation to how this proposal came about and whether it was as a result of an unsolicited bid from Go-Get.

Yours faithfully,

ANNE GARDINER
GENERAL SECRETARY

2 October 2014
