

Public education won't work without us

20 February 2015

SAS Staff Bulletin

PSA support for 229 schools

A high volume of the 229 schools have reported significant instability with the LMBR system as the new school year begins.

It has become obvious that with the return to school, enrolments and other tasks, that the system has not been able to cope.

What is the PSA doing and what can you do to help?

- PSA staff and delegates are meeting with senior staff from DEC on Monday 23 February 2015.
- Members who have not raised their LMBR issues with the PSA and wish to do so, please send them through to schools@psa.asn.au
- The PSA will be seeking that the Department stop further deployment of LMBR systems until such time as staff in the 229 schools are confident that the system is functioning.
- The PSA will report back to PSA members following the meeting.
- Thank you to those who have so far provided us with this information.

Any queries, please email schools@psa.asn.au
