

Sydney Olympic Park Sports Centre

The PSA welcomed the opportunity to meet with a number of staff in February to talk about PSA membership benefits and the value of the union.

We look forward to working with you into the future.

SOPSC – Workplace Group

One of the issues raised was how to increase the union presence in the workplace and we suggested you form a work place group.

These groups provide members and delegates with a supported structure that can address issues at your workplace.

We look forward to helping you build and establish this group at the next meeting in May.

Rights and entitlements

Of the many benefits of being a PSA member, one of the most

useful is that you can access expert advice on your rights and entitlements in the workplace through our Member Support Centre.

If there is enough interest from members we can also arrange to run Lunch'n'Learn workshops to go through a number frequently asked questions regarding sick leave, overtime, secondary employment, workers compensation and a number of other issues that affect your everyday work
