Summary of workforce changes - CS, 17 July 2015

The baseline headcount represents the number of non-executive staff eligible to be assessed for placement into future roles for this phase of redesign. The overall impact for this phase is 54 more roles than eligible staff in Corporate Services.

CS	Baseline Headcount	Future Roles	Future Roles, Ongoing	Future Roles, Time limited	Change (less)
Grade 11/12	113	106	92	14	-7
Grade 9/10	189	224	206	18	34
Grade 7/8	193	175	168	7	-18
Grade 5/6	134	164	161	3	30
Grade 3/4	137	151	141	10	14
Grade 1/2	90	93	86	7	3
Ungraded/Other	6	4	4	0	-2
Total non-executive	**862**	**916**	858	59	**54**

The increase in Corporate Services is in contrast to SRP and PSD where there are fewer roles and this is for three reasons:
1. The redesign of SRP and PSD is stable through to 2016/17 financial year, whereas there will be further impacts to Corporate Services through the transition and transfer of services to the non government sector.
2. The changes to SRP and PSD reduce the FACS workforce by 59 and Corporate Services continue to support the balance of the workforce across SRP, PSD, CS, ADHC, AHO, LAHC and Districts and State-wide Services.
3. The Future Roles for Corporate Services include additional project resources required to implement the next phases of redesign and other time related reform needs.

Note:
- Baseline Headcount for executives at December 2014 and non-executives at July 2015.
- Future Roles is based on data in the organisation design to be published to staff in July 2015..
- Baseline Headcount and Future Roles both exclude contractors and contract roles.
