Dear Minister,

**Re: LMBR in Schools**

The PSA has major concerns with the roll out of LMBR across schools in NSW. The current Trial in "229" schools has shown many flaws with the system and procedures. These are causing extra workload and work practice issues for our members that is leading to high levels of stress.

I am sure you will agree that it is unreasonable to expect a low paid group of staff to contribute their own time for the implementation of a central piece of infrastructure. The PSA has a survey of its members that clearly demonstrates this extra workload is occurring.

PSA has been told by the Department that it is leading to pre-deployment planning beyond the "229" schools. I write to ask that you put a hold on these expansions until all the issues are addressed.

We seek an urgent meeting to discuss these issues with you. Please contact Melanie Green on 9220 0970 to organise a time for the meeting.

Yours sincerely,

STEVE TURNER  
A/GENERAL SECRETARY
