

Business Technology Services restructure

On 3 November 2015 the Department of Industry announced a change management plan that will affect staff in the Business Technology Services unit.

In what amounts to a "spill and fill", 50 existing positions will be deleted and 46 new positions will be created to bring the unit into line with recent changes to the organisational structure.

While we acknowledge Management's commitment to increasing the number of ongoing employees, your union has already contacted the Department to raise concerns over the lack of genuine consultation around the proposed restructure.

You can read a copy of our letter [HERE](#)

In addition, the PSA has spoken with the Department to foreshadow a number of other issues around recruitment, classification and the impact of change on staff and their families in regional areas.

PSA has received a copy of the change management proposal, and will remain in contact with Management to pass on members' concerns. Please email your feedback to Jen Mitchell at jmitchell@psa.asn.au as soon as possible to ensure your voice is heard.

What you can do?

- Distribute this bulletin to your colleagues
- Ask a work colleague to join the PSA
- Let us know if you want a PSA meeting held at your workplace.
