DRAFT

1 Background

From July 2018, with the full implementation of the National Disability Insurance Scheme (NDIS), FACS will no longer deliver disability services in New South Wales. This represents a significant reduction to our workforce with frontline employees programmed to transfer to non-government organisations (NGOs) by June 2018.

The implementation of a fit for purpose Cluster Operating Model will help shape how the FACS clusters and districts operate in the future.

The overall aim of the Cluster Operating Model is to provide the most appropriate structure for our operations to continue the delivery of high quality services to our clients and communities, and continue to build and maintain our relationships with our non-government partners as we move through changes from major government reforms that impact FACS. Also as FACS gradually moves from a purchaser of services to commissioner of outcomes, the new operating model will provide a model for client centred, outcomes focused and collaborative practice.

The changes are now in place for our districts and state-wide services management structure. These changes are:

- replacement of the existing District Director roles with seven (7) Executive District Directors who are responsible for Community Services and Housing Services work;
- the appointment of an Executive Director to lead the state-wide services for Community Services, with Housing Statewide services continuing to report directly to the Deputy Secretary;
- the appointment of two temporary Executive Directors who are responsible for Disability Operations supporting the transfer of our disability services to the non-government sector and the transition of our clients to the National Disability Insurance Scheme.

1.1 The purpose of this Change Management Plan

The purpose of this Change Management Plan is to provide:

- an overview of the approach for redesigning the District management requirements and some Statewide Services functions
- transitioning non-executive employees of Housing, Community Services, and Disability Services non-transferring employees to the new Cluster Operating Model
- an outline of design principles and assessment processes that employees will undertake in order to transition to the new structure
- specific details of employee support and communication strategies
- any other implementation strategies or details that may impact employees.

Given the large number of employees who will be impacted, a multi phase approach to implementation will be used.

2 Principles

The assessment and placement of FACS non-executive employees affected by the Cluster Operating Model reform will be underpinned by the following principles:

- maximise opportunities for employee matching and reassignment
- adherence to public sector policies, guidelines and legislation
- minimal disruption to the organisational functioning
- a fair, transparent and accountable process
- regular consultation with employees and Unions
- availability of appropriate information and support to assist employees to understand the transition through the processes

3 Communication and Employee Support

Employees will be briefed on the change management plan and the transition process by Human Resources representatives and members of the Executive team.

The Public Service Association (PSA) will be consulted on the implementation of changes and the content of this plan. A regular forum for consultation with the PSA will be established as implementation progresses.

Regular communication updates will be provided to staff and unions as appropriate. The communications approach to employees will be multi-faceted and include:

- FACS intranet and email communications
- regular face to face employee engagement briefing sessions
- stakeholder consultation including the Public Service Association (PSA)
- availability of ongoing support and advice
- employee support materials including:
 - Cluster Operating Model implementation process and GSE materials
 - Cluster and business unit specific information including role descriptions and detailed information on the matching and assessment process.
 - Employee Assistance Program (EAP).

The employee transition and change management process is managed by Human Resources (HR). HR will provide information and advice to affected employees and their managers through HR_COM@facs.nsw.gov.au.

In addition to HR support, other resources are available, including:

- Career counselling, planning, skills training and support through NDIS Workforce Mobility Pathway
- Employee Assistance Program (EAP) Counselling
Converge International Telephone: 1800 337 068
- Public Service Association (PSA)
Telephone: 9220 0900 or 1800 467 932 for regional or outside of Sydney
- State Super Financial Services (SSS and SAS)

Information is available at the link: www.statesuper.nsw.gov.au

- First State Super information on superannuation and financial advice services Available at the link: www.firststatesuper.com.au
- FAQ materials available on the FACS [intranet](#).

4 Impact on Services and Functions

It is anticipated that the realignment of activities within the affected Districts and business units will not cause disruption or impact the delivery of services to clients and stakeholders.

5 Workforce Planning Needs and Impact on Services and Functions

As FACS moves towards a future state where disability service delivery has transferred to non-government organisations (NGOs), it is necessary to review the structures and processes that will underpin the delivery of best practice services in the future.

The organisation will become more agile and streamlined in the way that it delivers support services.

6 Changes to Organisational Structure

The new organisational structure has been developed to allow employees to work in a way that better serves our clients, colleagues and stakeholders.

Cohorts affected by the proposed organisational change include:

- District Management (including business management, executive support, cluster human resources and sector and reform)
- Housing Statewide Services (excluding frontline positions)
- Community Services Statewide Services (excluding frontline positions)
- Housing Contact Centre management and business support (excluding frontline positions)
- Helpline management and business support (excluding frontline positions)

Eligible non-executive employee grades for placement:

- Clerk Grade 11/12, Clerk Grade 9/10, Clerk Grade 7/8, Clerk Grade 5/6, Clerk Grade 3/4 Clerk, Clerk Grade 1/2, and General Scale Clerks.

The Cluster Operating Model Non-Executive Draft Change Management Plan excludes the following frontline service operations:

- Disability Services employees transferring to NGOs
- Large Residential Centres and Specialist Support Living (LRCSSL)
- Employees in frontline/client facing roles within Housing and Community Services

Following the approval of the draft Change Management Plan, each employee will receive written confirmation of their eligibility for placement in new Clusters Operating Model non-executive structures.

6.1 Voluntary Redundancy Program

Formatted: Heading 2, Indent: Left: 0 cm, Hanging: 1 cm

To support these major changes, FACS will undertake a voluntary redundancy program which is open to all ongoing non-executive employees in affected cohorts.

As a first step affected employees will be invited to express interest in voluntary redundancy.

Employees who express interest in voluntary redundancy will move directly to phase 2 of the placement process and be eligible for the NDIS Workforce Mobility Pathways.

The expression of interest process will be considered in conjunction with FACS business plans to ensure any decision to is aligned to the agency's priorities for reform and service delivery.

In addition, the expression of interest process for voluntary redundancy may raise options for a further review of the structure if the occupant of a role that has not been identified for deletion requests, and is offered voluntary redundancy.

In these instances, an alternative role deletion may be considered to offset the role, or a swap may be arranged between staff who want a voluntary redundancy and staff who do not, where an equivalent role is to be deleted.

7 Proposed Means for Filling Roles

These categories of employees will be eligible for placement within available roles:

- Ongoing employees (permanent)
- Eligible long term temporary employees (who have been appointed through a GSE compliant process, and have temporary service in excess of 12 months) in roles affected by the Cluster Operating Model change program
- Employees on above-level temporary assignments (with temporary service in the role in excess of 12 months) affected by the Cluster Operating Model program.

Only when these categories have been exhausted will external recruitment be considered.

It should be noted that any existing talent pools created within current Directorates / Divisions will not apply in filling roles in the new structures.

7.1.1 Direct Appointment and Matching - Introduction

Direct appointments to roles will be undertaken in Phase 1, and only available to eligible ongoing employees at grade only within the relevant job family and location.

Phase 2 – matching and assessment within current geographic location, roles will be open to eligible ongoing employees at grade; and ongoing employees who have been on above-level temporary arrangements in excess of 12 months, and currently located in a cohort included in this process.

~~Eligible employees on above-level temporary arrangements in excess of 12 months can participate at both their ongoing grade and the above-level classification in which they have been acting.~~

Phase 3 – This matching and assessment phase will be open to eligible employees who are unmatched in Phases 1 and 2; and eligible employees on above-level temporary arrangements in excess of 12 months, who are remaining Disability Services employees not within scope of the disability transfer (located in either a District or ADHC central office).

Phase 4 will be open to all internal staff in FACS, including eligible long term temporary employees service within the Cluster Operating Model non-executive cohorts.

FACS supports flexible working arrangements. Current ongoing part time employees matched to full time positions will not be disadvantaged in this process and where operationally convenient they will continue to perform their role in the normal manner.

Employees on secondments from external agencies will not be eligible to participate in the process.

Existing graduates are not required to be formally matched as they notionally form part of the Organisational Development Unit. Graduates will have the opportunity to participate in Phases 4 and 5 (see below).

Roles in Phase 1, 2 and 3 will be combined into EOI pools by (i) role and grade. The location element will only apply to Phases 1 and 2.

The implementation of the cohort and pools will be time dependent (refer Section 9). Information on EOI pools will be made available on the FACS intranet at the same time as the generic role descriptions, prior to the commencement of phase 1 of the Cluster Operating Model.

All ongoing employees who are affected by this change will be included for consideration in the direct appointment and matching processes.

Positions will be filled in the following phases:

Phase 1 Direct Appointment

Where a role is substantially unchanged, and there are fewer employees, or the same number of employees as roles, ongoing employees will be directly appointed based on (i) job family, role and grade, and (ii) location.

Employees on temporary arrangements are not eligible for inclusion in this process.

Ongoing employees who are currently undertaking a temporary arrangement will be considered in Phase 1 against their grade in their 'home' location.

Phase 2 Matching & Assessment Process (within metropolitan-District and or regional locations)

Roles in Phase 2 will be combined into EOI pools by (i) role and grade, and (ii) location.

Where there are more ongoing employees than roles; or where roles are substantially changed; or a role is new to the structure, eligible ongoing employees will be invited to nominate their role preferences for matching and assessment within the specified metropolitan or regional locations.

Ongoing employees will be invited to submit an expression of interest for their nominated preferred roles.

Employees on temporary arrangements are not eligible for inclusion in Phase 2.

~~Ongoing employees who are currently undertaking above-level temporary arrangements in excess of 12 months will be considered in Phase 2 against their ongoing and above-level role.~~

Every endeavour will be made to meet employee preferences however there may be circumstances where employees are placed in roles to meet organisational needs.

Formatted: Justified

Phase 3 Matching & Assessment Process (open across all geography)

Roles in Phase 3 will continue to be combined in EOI pools by (i) role and (ii) grade only.

Eligible employees for this phase are ongoing employees and ongoing employees on above-level temporary assignments for longer than 12 months at the commencement of the phase, and who:

- have not been appointed to a role in Phase 2 at grade or to an above-level role,
- are remaining Disability Operations employees who are not within scope of the disability transfer (located in either a District or ADHC central office) that were not eligible to participate in phase 2.

3.1 Eligible employees may express an interest and nominate their preference for a suitable vacant ongoing role at their substantive grade in any location. In general, it should be noted that where an employee, at their own request, is successful in being appointed to a role in a new location that necessitates movement of their private residence, the employee will be responsible for any costs incurred relating to that move.

3.2 Following conclusion of 3.1, ongoing employees on above-level temporary assignments of more than 12 months will be invited to express interest in any remaining roles. Wherever possible, ongoing employees on above-level temporary assignments of more than 12 months will be considered for appointment at their acting grade.

Formatted: Indent: Left: 0 cm

FACS will make every endeavour to meet employee preferences however there may be circumstances where employees are placed in roles to meet organisational needs.

Phase 4 – Internal advertising within FACS

Eligible temporary employees will be eligible to express an interest in remaining vacancies following completion of Phase 3.

Vacancies remaining from Phase 4 will be advertised internally.

Phase 5 – External advertising

Vacancies remaining from Phase 4 will be advertised externally.

7.1.2 Employees Not Matched/Unplaced

Affected employees not matched to a role after the completion of Phases ~~2 and 3~~ 4 of the Cluster Operating Model Non-Executive Transition program or through the NDIS Workforce Mobility Pathway (refer Section 8), may be declared excess to the needs of the business and managed in accordance with the current Department of Premier and Cabinet '[Managing Excess Employees' Policy](#) and related documents.

[Alternatively, employees not matched to roles at the conclusion of phases 2 and 3 may negotiate an earlier separation date with the approval of FACS.](#)

For temporary employees, refer to section 13 in this Change Management Plan.

7.1.3 Transferring Officers

It is not expected that employees will be redeployed to roles that require them to relocate their residence at the direction of the department. However, if following consultation with employees, this should occur, employees may be entitled to compensation in accordance with the provisions of the *Crown Employees (Transferred Employees Compensation) Award 2009* or other policy and/or industrial instruments subject to approval by the Department.

7.1.4 Placement Process

Those employees who are eligible for Cluster Operating Model Non-Executive transition through Phases 1 to 3 will be issued with written notification of the outcome of the matching processes for all relevant phases.

8 NDIS Workforce Mobility Pathway

The NSW Government has set up a program to support employees to find employment opportunities within FACS and also across the broader NSW public sector. This program is focused on employees who are not transferring to a non government operator or employees who are affected by the full implementation of the NDIS.

This is a new process for the NSW public sector, and is the first time that the principles of the Government Services Employment Act 2013 (GSE) will be applied to full effect across NSW.

The aim of the NDIS Workforce Mobility Pathway is to match employees with vacant roles in FACS and across the NSW public service at grade.

Some employees will need to stay in their roles through to June 2018 to ensure business continuity. We are working to ensure that when opportunities arise, FACS employees are able to take up the new opportunity in the short or longer term – whichever is more feasible.

All eligible affected employees unplaced in the enduring structure will participate in the NDIS Workforce Mobility Pathway.

There will be a dedicated career services provider to co-ordinate the mobility pathway process. The provider will:

- work with FACS to identify the employees are eligible for the mobility pathway
- work with those employees to identify and assess their capabilities and the types of roles they would be suited to
- work across the NSW public sector (including FACS) to identify vacant roles that may be suitable, and to anticipate when future vacancies may arise
- work with employees and hiring managers to match individuals to available roles and to finalise the placement where it is agreed that there is a match
- work with individual employees to tailor any post placement training or capability development that may be required to support the role transition.

Eligibility for the NDIS Workforce Mobility Pathway as it relates to this change initiative is focussed on affected Cluster Operating Model non-executive ongoing employees and Disability Services non-transferring ongoing employees.

9 Assessment Process

9.1.1 Process

Where an assessment interview is required as part of the Expression of Interest (EOI) for non-executive appointments, HR will prepare relevant templates, assessment materials, processes and provide support for decision making.

[Note: employees are deemed to be suitable for appointment to roles at their grade within their current job family.](#)

9.1.2 Role Descriptions

Generic role descriptions will be utilised as appropriate to support the process described above.

- Role Descriptions will include standard role titles and reference to the capabilities defined by the [NSW Public Sector Capability Framework](#).
- In some cases, the functions and responsibilities of roles will remain largely unchanged and for other roles, functions and responsibilities may change or new role descriptions will be developed to reflect the alignment of the District and business unit's business structure to a functional design.

- Generic role descriptions will be supported by an attachment to provide additional contextual information such as role specific criteria.

DRAFT

10 Key Timeframes

In summary, the following are anticipated timeframes for the implementation and completion of the Cluster Operating Model non-executive transition process. It should be noted that there may be variations to this timetable.

Approximate timeframe	Activity	Key Contact
November 2016	Employee engagement and consultation on new structure and draft change management plan.	HR, Executive Team
November 2016	Announcement of staff consultation, commencement of employee briefing sessions including timetable for Phases 1 to 5.	HR, Executive Team
Late January / February 2017 February 2017	<p>Employee briefing sessions across all Districts and business units in preparation for commencement of appointment and matching phases.</p> <p>Those employees who are on long periods of leave, i.e. parental or maternity leave, LSL/Extended Leave, Leave Without Pay or seconded out of FACS will be contacted by their manager.</p> <p>Email to employees re commencement of the Phase 1 direct appointment process.</p> <p>Phase 1 – Commencement of Direct Appointment process (where the role is substantially unchanged, and where there are less employees or the same number of employees as roles).</p> <p>Eligibility is limited to ongoing employees only.</p> <p>This process includes consideration of directly appointing employees who have been appointed through a targeted disability employment initiative.</p> <p>Announcement and letters to matched employees via email.</p>	HR, Executive Team

<p>February – May 2017</p>	<p>Phase 2 – Commencement of Matching and Assessment Process (Metropolitan and regional)</p> <p>Communication to eligible affected employees as described in Section 7 Phase 2 and invitation to participate in the matching process through expressions of interest in EOI Pools by (i) job families, roles, and grades (ii) metropolitan-District and or regional locations.</p> <p>Eligibility for Phase 2 is limited to ongoing employees at grade and ongoing employees on temporary above-level assignments with continuous service at the same level for 12 months or longer at the commencement of this phase.</p> <p>Participants will be required to submit a CV and a written response to two capability based assessment questions for a review/potential interview.</p> <p>Referee checks completed.</p> <p>Correspondence to matched employees.</p>	<p>HR, Executive Team</p>
<p>February – May 2017</p>	<p>NDIS Workforce Mobility Pathway</p> <p>Eligible employees who have not been directly appointed in Phase 1 or appointed to the enduring structure will be advised by email.</p> <p>Participation in the NDIS Workforce Mobility Pathway initiative will commence during Phase 2 (Matching and Assessment).</p>	<p>HR</p>

<p>June – August 2017</p>	<p>Phase 3 – Commencement of Matching and Assessment Process (<u>open across all geography</u>)</p> <p>Communication to eligible affected employees as described in Section 7 Phase 3 and an invitation to participate in matching process through expressions of interest in EOI Pools by (i) job families, roles, and grades (ii) across all locations where vacancies remain open.</p> <p>Eligibility for Phase 3 includes:</p> <ul style="list-style-type: none"> • ongoing employees unmatched in Phases 1 and 2 • Disability Operations employees who are not within scope of the disability transfer (located in either a District or ADHC central office). <p>Participants will be required to submit a CV and a written response to two capability based assessment questions for a review/potential interview.</p> <p>Referee checks completed.</p> <p>Correspondence to matched employees.</p>	<p>HR, Executive Team</p>
<p>June – September 2017</p>	<p>Employees, who have not been directly appointed or matched in Phases 1, 2 or 3 <u>nor</u> appointed to a role through the NDIS Workforce Mobility Pathway, will be matched for time limited roles in Disability Operations until such times that the transfer of services has been completed, i.e. up to June 2018.</p> <p>Employees who have not been successful in securing an ongoing or time limited role may be declared excess to the needs of the business.</p> <p>Letters will be issued as per Managing Excess Employees Policy (MEEP).</p>	<p>HR, Executive Team</p>
<p>Commencing September 2017</p>	<p>Phase 4 – Internal Advertising within FACS for all remaining vacancies</p> <p>Eligibility for this phase is described in Section 7 Phase 4 - long term temporary employees with over 12 months service at the commencement of this phase.</p> <p>Vacancies remaining from Phase 4 will be advertised internally across FACS.</p> <p>Employees who have not been successful in securing an ongoing or time limited role may be declared excess to the needs of the business.</p> <p>Letters will be issued as per Managing Excess Employees Policy (MEEP).</p>	<p>HR, Executive Team</p>

As required	Phase 5 – External Advertising for all remaining vacancies	HR, Executive Team
-------------	-------------------------------------------------------------------	--------------------------

11 Impact on EEO Groups or employees with a disability

It is not anticipated that there will be any negative impacts on EEO Groups or employees with a disability.

Where an employee has declared a disability, FACS will work with the employee to ensure appropriate and reasonable adjustments are made to the matching/placement process where necessary.

The FACS Board is committed to the provision of career opportunities for Aboriginal employees and the delivery of a high standard of service to Aboriginal communities, and the ratio of identified and targeted Aboriginal roles will not be reduced through this process. Identified and targeted roles will be clearly marked in the final versions of designs published following the consultation and engagement period.

12 Impact on Rural Communities

FACS is progressing to transfer disability services to non-government organisations (NGOs) in preparation for the full implementation of NDIS by 30 June 2018. A direct result of this change is a significant reduction of the associated workforce and budget.

Employees located in affected regional communities will be offered additional support to secure alternate employment opportunities through the NDIS Workforce Mobility Pathway. This program is focussed on employees who are directly affected by the changes from the introduction and implementation of NDIS.

13 Management of Temporary Employees & Ongoing Employees in Above Level Temporary Assignments

Employees on Above Level Assignments

Where an ongoing employee on an above-level assignment is not matched at the above level grade, the temporary assignment will cease. The employee will return to their ongoing role (at level) within one (1) month following negotiation with their former business unit.

Where an employee is on an above-level temporary arrangement and both the District and business unit are included in this process, the employee will be able to participate at ~~both~~ their [ongoing substantive level \(at Phase 2\)](#) and above-level classification in Phase [23](#).

Where an ongoing employee on an above-level assignment is required to return to a former role that no longer exists, those employees will need to be considered for reassignment to a suitable ongoing role (at level) where available.

Where there is no role for reassignment through Phases 1, 2 or 3, and an employee has not been successful in being appointed to a suitable role in another part of FACS or another NSW Government agency through the NDIS Workforce Mobility Pathway, an ongoing employee may be declared excess to the needs of the business and managed under DPC's '*Managing Excess Employees*' policy.

Temporary Employees

Where an eligible temporary employee is not matched against an ongoing role, then the employee's existing contract may cease at a date determined by the business. In limited circumstances temporary employees may be eligible for a severance payment.

Temporary employees are not eligible to participate in the NDIS Workforce Mobility Pathway.

Agency and Contract Staff

Agency staff occupying roles in the new Cluster Operating Model Non-Executive structures may be required to complete their contracts earlier than advised for their current contract period as determined by the business unit. Agency and contract staff will be given an appropriate period of notice.

Agency and Contract staff are not eligible to participate in the NDIS Workforce Mobility Pathway.

Secondments from other NSW Public Sector Agencies

Employees seconded to FACS from other NSW Public Sector Agencies are not eligible to participate in the matching process.

FACS employees on secondment to other NSW Public Sector Agencies

Information packs will be provided to employees on secondment to ensure that they are given opportunities to consult and participate in the transition process.

If matched to a role following the matching process, the employee's Executive District Director or Executive Director will negotiate a return date from the external agency to allow the employee to assume their role in the new agency structure.

14 Work, Health & Safety

As part of the ongoing management of Work, Health and Safety, each District and business unit will manage any potential risks or impacts associated with the transition to new divisional structures.

15 Links to other Projects and Reforms

- Future Directions for Social Housing in NSW – Social Housing Management Transfers
- Transfer of disability staff
- Large Residential Centres & Specialist Supported Living (LRCSSL)

16 Internal Review

Employees can seek an Internal Review which is limited to process only.

A 'Request for an Internal Review' form is attached (**Appendix 1**). Any application for Internal Review should be forwarded to HR_COM@facstaff.nsw.gov.au no later than one week from the day the employee was notified of the decision. Outcomes are final and employees will be notified within two weeks of the receipt of the Review Request.

17 Relevant NSW Public Sector Employment Policies

Under the transitional arrangements in accordance with section 13 (1) and (2) of the *Government Sector Employment Rules 2014*, the following policies are relevant to change management and organisation restructuring in the NSW Public Service:

- [Managing Excess Employees Policy M2011-07 \(D2011_007\)](#)
- [Case Management and Redeployment Guidelines D2011-09](#)
- [Agency Change Management Guidelines D2011-014](#)
- [Voluntary Redundancy Program Guidelines D2011-023](#)
- [Voluntary Redundancy: Superannuation Implications D2011-013](#)

For further information in relation to the above policies, please contact your HR Partner or HR_COM@facstaff.nsw.gov.au

18 Definitions

Case Management refers to an 'excess employee' in accordance with the DPC 'Managing Excess Employees' policy, who has chosen the option of three months redeployment. The employee will be provided with ongoing case management and appointed a Case Manager in accordance with the DPC '*Case Management and Redeployment*' policy.

Excess employee means an employee of a government sector agency who is determined to be excess to the requirements of the relevant part of the agency in which the employee is employed.

Eligible Long Term Temporary employees and above level temporary assignments are those employees who as at the commencement date of each relevant phase will have been in the role (at level or above level) for a continuous period of 12 months or more.

Employment in classifications of work is determined by the head of the department or agency in which the person is employed. A classification of work extends to any kind of work and any grade of that work.

External advertising means the process of advertising on the NSW Jobs website (*work for NSW*). It may also include any other form of advertising that is accessible to the general public

Ongoing employment is employment that continues until the employee resigns or employment is terminated.

Role of an employee means the duties and responsibilities of the employee.

Temporary employment is employment for a temporary purpose.

Redeployment means the ongoing placement of an excess employee into a role. This may involve placement into a role at the same classification/grade/salary or where there are no roles at that classification/grade/salary or equivalent, into a role within 5% of the maximum salary of the award classification salary range of the employee's former role.

19 Appendices

19.1 Appendix 1: Employee Change Table

Table 1: Current Roles impacted by Clusters Operating Model Transition

Current Roles	Grade	Metropolitan Located Roles	Regional Located Roles	Total
	GRD 11/12	57	44	101
	GRD 9/10	69	58	127
	GRD 7/8	177	146	323
	GRD 5/6	67	40	107
	GRD 3/4	35	31	66
	GRD 1/2	28	25	53
	INCR	9	6	15
	Total	442	350	792

N.B data reflects roles derived from SAP establishment as at 9 September 2016. Validation will take place prior to the transition commencing in January 2017.

Table 2: Future Roles in the Enduring Structure eligible to be filled through Clusters Operating Model Transition

Enduring Structure	Grade	Metropolitan Located Roles	Regional Located Roles	Total
	GRD 11/12	40	22	62
	GRD 9/10	32	22	54
	GRD 7/8	99	61	160
	GRD 5/6	41	10	51
	GRD 3/4	29	20	49
	GRD 1/2	2	3	5
	INCR	6	0	6
	Total	249	138	387

N.B. Enduring organisation structure as approved by FACS Design Authority on 31 October 2016.

Table 3: Roles within Disability Operations eligible to be filled until Disability Transfer (up until July 2018)

Disability Operations	Grade	Metropolitan Located Roles	Regional Located Roles	Total
	GRD 11/12	18	14	32
	GRD 9/10	28	22	50
	GRD 7/8	75	66	141
	GRD 5/6	4	7	11
	GRD 3/4	11	14	25
	GRD 1/2	11	14	25
	INCR	4	6	10
	Total	151	143	294

N.B. Roles within Disability Operations eligible to participate in the Cluster Operating Model will continue to be filled until Disability transfer

19.2 Appendix 2: Form: Request for an Internal Review

PURPOSE

In accordance with the Cluster Operating Model Staff Change Management Plan, affected ongoing employees, existing excess employees, eligible long term temporary employees, and above level temporary assignments affected by the Cluster Operating Model Non-Executive Transition process can seek an internal review of the assessment process. This is limited to process only.
