

Disability Services Anti privatisation stall Hornsby Mall 19 April 2017

Thank you for your participation

Members from ADHC and staff from your PSA FACS & Health team were out and about talking to the community in Hornsby Mall on Wednesday 19 April 2017.

A stall was set up and many members of the public came up and spoke to us about why we were there and to express their disgust about what the NSW Government is doing in privatising disability services and other public assets.

A very broad cross section of the community were interested in this issue.

Many of them said they would follow up and email their MPs via the www.pds.org.au website.

It is very important that we continue to make the community aware of this issue.

Engagement with the community has been difficult but when they understand the facts and ramifications they are outraged.

Further stalls or community projects are in the pipeline so if you are able to spare some time to assist then please do so.

The more people that are talking about this, the further into the community our message can reach.

Lets put the pollies on notice!
