

VICARIOUS TRAUMA - MANAGING THE INEVITABLE

Legal Aid lawyers often have to deal with material that is confronting and traumatic. Without the appropriate tools to manage this, lawyers can suffer vicarious trauma that will have an ongoing effect on their careers and their health.

The PSA has engaged Rape and Domestic Violence Services Australia to deliver a seminar on how to manage vicarious trauma.

The PSA Legal Aid delegates would like to invite their colleagues at ODPP to attend this seminar.

**When: 4:30-5:30pm, Thursday 6 April
2017**

Where: Level 12, Head Office

RSVP: anastasia.polites@legalaid.nsw.gov.au

**by 4 April 2017. Limited to 60 and
priority will be for PSA members.**

The seminar will be followed by drinks and nibbles with delegates and Rachel Francois, the Unions NSW nominee to the Legal Aid Board.

The training will look at identification, risk factors and management of vicarious trauma with a focus on the effectiveness of different management techniques both at an organisational and individual level. It will attract 1 MCLE point.

If you want to join the PSA you can do so [HERE](#)
