## Do you feel like disability services staff matter?

As Ageing Disability and Home Care continues to be systematically dismantled the PSA has received feedback from members and delegates about low morale amongst disability workers.

Members have reported a lack of pastoral care and respect shown to ADHC staff during the privatisation of disability services, the forced transfer of staff to non-government service providers and other processes such as the Cluster Operating Model and the Mobility Pathway.

While we encourage members to be specific and honest when filling out the People Matter Survey; we also want to give you the opportunity to have your say confidentially to your union.

*The survey below has been developed by members and delegates.*

Now more than ever it's important to make sure you have updated your details with the PSA. These are difficult times for members in ADHC and we must ensure we keep our union strong so that members are supported now and into the future.

Having your union and its collective strength behind you when bargaining for conditions is the only way to make sure you get fair outcomes.
