# PSA Youth Survey 2017

Are you under 35? Are you keen to have a say in your union? The PSA wants to hear from you.

The PSA is looking at giving our young members a voice within the union, with the goal of creating a space for youth issues to be heard and acted upon.

The following survey is designed to find out more about you and what you care about, and what your union can do for you.

The data will be collected by the PSA and will remain confidential. This data will only be used internally to help us engage our young members, and if any responses are published they will be on an aggregate basis only.

The survey should take less than 10 minutes to complete, and we encourage you to take advantage of the comment boxes.

This is your chance to have a say.

Click [HERE](#) for the survey.
