Custodial Corrections Operations Policy and Procedure Manual
Benchmarking Reform

Corrective Services NSW (CSNSW) is currently undertaking a benchmarking program to ensure all correctional centres provide value for money and enhanced service delivery.

The Program includes two major components:

1. ***Performance targets:*** that outline what centres need to achieve to become the best they can be; and
2. ***Resources (Including staffing):*** required for a centre to perform efficiently and effectively.

It has been established that there is a need for review of current policy and procedure (OPM) and implement into the development of a new policy and procedure to meet performance targets and reflect all changes within the benchmarking process.
