FACS bulletin – Commissioning restructure + meeting notice

Transition to new structure and non-executive assignment process

On 20 October 2017, PSA representatives were briefed by the Deputy Secretary Commissioning in relation to the non-Executive assignment process which commenced on 25 October 2017.

Ongoing employees were requested to provide three preferences for branches, not a specific role by 1 November 2017.

During November, each director will be moderating within the directorate re-assignment of each employee.

This will lead to each employee being assigned and the structure being in place by 8 January 2018.

During recent workplace visits by PSA organisers a number of members have requested that a meeting occur to deal with a number of emerging issues.

This is timely in view of the current timeline for the assignment process.
