Why is the PSA doing this survey?

Over the past few months, our Land and Housing Corporation members have reported some issues we believe might be of concern to the wider membership and staff.

The following survey has been designed to measure how widely felt some issues are for staff.

The data from this survey is being collected by the PSA and all responses will remain strictly confidential.

The data collected will be used to address the issues impacting Land and Housing Corporation members.

If the PSA decides to discuss the results of this survey with Housing NSW, any data provided will be on an aggregated basis only.

It should take less than 10 minutes to complete the survey and we encourage all members to take advantage of the opportunity to provide feedback to their union.

This is your chance to have your say!
