

Journey Insurance – for travel to and from the workplace

Many members would recall the heinous action back in 2012 when the current Liberal government abolished Workers Compensation for ‘journey claims’ – incidents which occurred on the way to or from work.

Whilst the Department’s “Safety Starts with You” campaign is to be commended, the PSA would like to take this opportunity to remind members that the PSA has already taken positive action to deal with incidents which occur on the way to or from work.

The PSA, YOUR union, is not only responsible for safeguarding your conditions of employment, negotiating your annual PAY RISE, and giving members a voice in the workplace, amongst a range of other value-added services the PSA has also arranged for members to be covered by journey insurance.

Members – do your colleagues a favour, let them know about this and suggest they join the PSA today. Put this notice up on your notice boards.

Peace of mind – gladly brought to you by the PSA!

Join online [HERE](#).
