The Australian Human Rights Commission has announced a national inquiry into sexual harassment in Australian workplaces. The PSA/CPSU NSW encourages all members to participate in the ACTU survey below, which will inform the ACTU submission and your union's national union submission.

Many of us have experienced being sexually harassed at work. It's shocking and hard to deal with.

The Australian Human Rights Commission estimates one in three people in the last five years have experienced sexual harassment at work.

Everyone should be able to go to work in a safe environment, free of harassment. To achieve this we need to keep exposing what's happening in workplaces so our lawmakers get the full picture.

The Australian Human Rights Commission inquiry into sexual harassment in Australian workplaces will shine much needed light on a broken system which is failing workers.

We need new approaches to this endemic problem and to change the rules in this area.

Australian Unions will make a submission to the sexual harassment inquiry on behalf of all working people, and we need to hear from you and your workmates so that we can include as many real life experiences as possible.
