

We want to hear from you: School Psychologists

About a week ago the PSA sent out a [bulletin](#) and [survey](#) about a number of issues members have been experiencing in the workplace.

The union has been working with School Psychologist members to better understand your working environment and what you care about.

To help us do this we have developed a short survey.

Tell us what you think

This survey is for both non-members and members.

[CLICK HERE TO DO THE SURVEY](#)

This survey is confidential and no individual respondent will be identified. We will be using the outcomes of the survey to help us to lobby for better support and more secure work for you.

Please forward this bulletin on to your colleagues!

The PSA is hoping to reach as many School Psychologists as possible.

Please forward this bulletin on to your colleagues to ensure we canvass as widely as possible and to give them the opportunity to join with us to advance the workplace conditions of school psychologists.

We encourage all school psychologists to [JOIN](#).
