Evolving Transport consultation survey

The PSA is interested in hearing from its members about consultation around evolving transport. Therefore, we have decided to survey all members in TfNSW and RMS.

The results from this survey will prove invaluable in advocating for the interests of our members during these evolving transport reforms.

We ask that you please complete the survey found at the following link:

<https://www.surveymonkey.com/r/TYG889P>.

We also ask that members forward this survey link on to other employees so we can gather as broad a range of answers as possible.

If you have any further questions about the evolving transport consultation process, please feel free to send them through to your organiser Ben James on bjames@psa.asn.au.

It's time to get involved!
