

PSA requesting extension for Admin Review Consultation

As a result of recent discussions with the Environment Protection Authority (EPA), the PSA has formally requested that consultation be extended for an extra two weeks from Friday 19 March. This effectively means the consultation period would extend until the Easter break.

This request has been made due to a number of unanswered queries as well as the need for further discussions around how recruitment after phases 1 and 2 are conducted.

The PSA will provide a further update once we have more information on the EPA's response to our request.

If you have any questions or concerns in the meantime you can contact your local delegate or PSA Organiser Chris Bird at cbird@psa.asn.au.
