## COVID-19 VACCINE MEDICAL CONTRAINDICATION

I am a registered medical practitioner. I certify that, Given name:  Family name:  DOB:    Sex:   Male   Female   Prefer not	
Residential address:  Section A – Medical contraindication  Has the following medical contraindication(s) to receiving a dose of all of the COVID-19 vaccines available for use in Australia:  Pfizer (Comirnaty) COVID-19 vaccine  Dose 1 Dose 2 Dose 1 Dose	
Section A - Medical contraindication   Has the following medical contraindication(s) to receiving a dose of all of the COVID-19 vaccines available for use in Australia:   Pfizer (Comirnaty)	to sa
Has the following medical contraindication(s) to receiving a dose of all of the COVID-19 vaccines available for use in Australia:  Pfizer (Comirnaty) COVID-19 vaccine  Dose 1 Dose 2 Do	
Pfizer (Comirnaty) COVID-19 vaccine  Dose 1 Dose 2 Dose 1	
COVID-19 vaccine  Dose 1 Dose 2 Dose 1 Dose 1 Dose 2 Dose 1 Dose 1 Dose 2 Dose 1 Dose 2 Dose 1 Dose 2 Dose 1 Dose 2 Dose 1 Dose 1 Dose 2 Dose 1 Dose 2 Dose 1 Dose 1 Dose 2 Dose 1 Dose 2 Dose 1 Dose 2 Dose 1 Dose 1 Dose 1 Dose 1 Dose 1 Dose 2 Dose 1 Dose	1
History of anaphylaxis to a component of the Pfizer (Comirnaty) COVID-19 vaccine  Serious adverse event attributed to the first dose of the Pfizer (Comirnaty) COVID-19 vaccine, being:  History of anaphylaxis to a component of the AstraZene (Vaxzevria) COVID-19 vaccine  History of anaphylaxis to a component of the AstraZene (Vaxzevria) COVID-19 vaccine  History of anaphylaxis to a component of the AstraZene (Vaxzevria) COVID-19 vaccine  History of anaphylaxis to a component of the AstraZene (Vaxzevria) COVID-19 vaccine  History of anaphylaxis to a component of the AstraZene (Vaxzevria) COVID-19 vaccine  History of anaphylaxis to a component of the AstraZene (Vaxzevria) COVID-19 vaccine  History of anaphylaxis to a component of the AstraZene (Vaxzevria) COVID-19 vaccine  History of anaphylaxis to a component of the AstraZene (Vaxzevria) COVID-19 vaccine  History of anaphylaxis to a component of the AstraZene (Vaxzevria) COVID-19 vaccine  History of anaphylaxis to a component of the AstraZene (Vaxzevria) COVID-19 vaccine  History of anaphylaxis to a component of the AstraZene (Vaxzevria) COVID-19 vaccine	
to a component of the Pfizer (Comirnaty) COVID-19 vaccine  Serious adverse event attributed to the first dose of the Pfizer (Comirnaty) COVID-19 vaccine, being:  to a component of the Moderna (Spikevax) COVID-19 vaccine  Woderna (Spikevax) COVID-19 vaccine  History of capillary leak syndrome History of any of the following medical conditions:  cerebral venous sinus thrombosis (CVST) heparin-induced thrombocytopenia (HIT) idiopathic splanchnic (mesenteric, portal or splenic) vein thrombosis	
Other specified medical contraindication, being:  Other specified medical contraindication, being:  Other specified medical contraindication, being:  antiphospholipid syndrome (APLS) with thrombosis and/or miscarriage  Serious adverse event attributed to the first dose of the AstraZeneca (Vaxzevria) COVID-19 vaccine, being:  Other specified medical contraindication, being:	
OR  Section B – Temporary medical contraindication <u>for up to 6 months</u> <sup>2</sup>	
Has the following temporary medical contraindication(s) to receiving dose 1 dose 2 of any of the COVID-19 vaccines	
available for use in Australia until / / (up to 6 months)	
acute major illness, being:	
significant immunocompromise of short duration, being:	
past confirmed infection with SARS-CoV-2 within the last 6 months <sup>3</sup> . Date of diagnosis:	
other specified temporary medical contraindication, being:	
Medical practitioner details	
Name: Telephone:	
Address: Email:	
Registration M E D 0 0 0 Number:  Date:    Print and Sign	

## COVID-19 VACCINE MEDICAL CONTRAINDICATION

## **Notes**

- A patient must have medical contraindications to all of the COVID-19 vaccines available for use in Australia in order to be exempted from COVID-19 vaccination requirements under public health orders. If a patient has a medical contraindication to one brand of COVID-19 vaccine, they may be able to be offered an alternate brand, if suitable.

  The Australian Technical Advisory Group on Immunisation (ATAGI) provide clinical guidance on the use of COVID-19 vaccines in Australia, including guidance on contraindications to COVID-19 vaccines: <a href="www.health.gov.au/resources/publications/covid-19-vaccination-atagi-clinical-guidance-on-covid-19-vaccine-in-australia-in-2021">www.health.gov.au/resources/publications/covid-19-vaccination-atagi-clinical-guidance-on-covid-19-vaccine-in-australia-in-2021</a>
- <sup>2</sup> Temporary contraindication can only be recorded for up to 6 months. If the contraindication persist beyond this time the person will require review by an appropriate medical practitioner. If the cause of the medical contraindication persists, a new medical contraindication form will need to be completed.
- Past confirmed infection with SARS-CoV-2 is not a contraindication to vaccination, however ATAGI recommends deferring COVID-19 vaccination for up to 6 months after the acute illness. Current evidence suggests that the risk of SARS-CoV-2 re-infection is low in the 6 months after initial infection, but may increase with time due to waning immunity. There may be some situations where it is reasonable to be vaccinated earlier than 6 months following infection in consultation with a health practitioner, such as people working in a job with a high risk of exposure to SARS-CoV-2, or patients who are significantly immunocompromised and may not have a strong immune response after being infected with the virus. Similarly, if a person is infected with SARS-CoV-2 and has had their first dose of COVID-19 vaccine, the second dose may be deferred for up to 6 months. In these situations, the person should consult their healthcare professional and their individual circumstances should be considered. If vaccination is deferred up to 6 months, this can be indicated by completing section B of this form.

## Instructions for the patient

Please keep this completed form safe. You may be required to present this completed form to your workplace as evidence of your medical contraindication to COVID-19 vaccination and carry it with you when you are working. Please check the NSW Government website for more information about the requirements for your workplace.
